**OUR LOGO**

The open ended rope represents tying the present with the past. Using the best of what we have presently to move forward. The rope comes from the loggers who opened this land for us and the maple leaf comes from the maple syrup that this area is so well known for.

The leaf stem ties Lanark Highlands at top, with the pointing of the leaf towards the middle of Business and Tourism – equally represented in the association.

*Dedicated to the memory of all those who carved this land before us, that we may prosper in our endeavors as they did.*

**Lanark Highlands  
Business & Tourism Association**

**Membership Info**

Our Association is a non-for-profit volunteer driven group, whose members are made up of area business people. It was formed to establish a group of interested local business folk who realized the benefit of working together to share their resources and talents to obtain for themselves and Lanark Highlands, a stronger cooperative base for tourism and business marketing and development. As a group LHBTA has been able to achieve these aims and give firm support to projects when and where this has been requested.

LHBTA is an accredited association whose members provide warm hospitality and efficient services and information, when it is requested, to both local residents and tourism organizations, together with the visitors who take vacations in this area.

## Why Become a Member?

Becoming a member helps everyone. Your support as a member in the association, makes it possible for other businesses to grow and become established. LHBTA does what it can to help you at all stages of your business.

By creating tourist festivals we help draw more people to the area to increase visitors for businesses that depend upon tourists.

We also encourage local people to patronize local businesses by giving them exposure through inexpensive advertising and other endeavors.

Your Membership card, gives you exclusive member discounts equal to your Membership cost, so makes becoming a member really worthwhile!
